

**About:**

'Collaborative Design' was founded on the basis of providing architectural & interior designing and project management services that exceed the expectations of our clients. The core values of the firm's ownership group are to provide comprehensive, timely, and fluid coordination during a project's design as well as implementation processes. These coordination efforts result in solid design management, construction documents, reports, and recommendations that are clear and concise. The organization provides more than design solutions; we provide a smooth, proactive coordination process all along the way.

The firm was founded in 2008 by Bhaumik Modi. Since then, the firm has been engaged in all aspects of Physical Planning in Architectural projects, Interior Design and Project Management.

**Professional Expertise:**

Reach in Gujarat with all required agencies for Architectural & Interior works.

Have a comprehensive skill in interior turn-key projects with Spatial Design, Technical Layouts, Detailed Working Drawings with Preparing Estimates, and Rate Schedules with detail breakups of material & labor costs, communicating & negotiating with representative agencies.

**Teaching Experience:**

As an external critic for academic years 2005-2007 for Basic Design & Workshop at A.P.I.E.D., VV Nagar, Gujarat.

**Staff:**

'Collaborative Design' has standing agreements of co-operation with leading experts, institutions and firms in related fields, covering services outside the firm's own scope of activities. The staff of 'Collaborative Design' includes specialists in Architecture. The firm employs a multidisciplinary team approach to solve planning problems by designated team, well coordinated by a member of the key staff, to be responsible for the routine update.
